Arxx Building Products is a leading manufacturer of Insulated Concrete Forms (ICF) with distribution and contractors all across the United States and Canada. The complete product line of Arxx Forms and accessories, as well as the bracing /scaffolding systems, in the hands of our experienced contractors, provide over-all efficiency to any construction project.

Arxx Building Products has more than 14 years experience in the ICF industry and is an organization that promotes excellence and efficiency in all building projects, any size, any height. Arxx has a strong sales, customer service and technical support network that can work directly with you and your design team, to ensure all the benefits of ICF wallsystem and construction techniques are built into the project.

If you are conscientious of energy savings, ‘Green’, sustainability, life cycle cost savings, time and money, then join our list of satisfied customers. Gain the understanding that ‘traditional’ construction means ‘old’. Start building with the new tradition – Arxx.
